

CAT6A SLIM Patch Cables

2,5/5/10 Gbps

10 Years Warranty

Conexpro patch cords combine quality and reliability. Unlike conventional cables, Conexpro patch cords have a high quality and elegant rubber protection tab to prevent the retaining latch from breaking. The patch cords are carefully designed for maximum performance, reliability and quality thanks to certifications according to internationally recognized standards. Conexpro isn't just about patch cables, it's an important part of our comprehensive range of structured cabling products that you'll love.

Part NO	PC6AFS-*
Shielding type	STP (U/FTP)
Conductor wire size	28 AWG (7*0.12 mm)
Cable diameter	5.2 mm
Conductor type	Copper stranded wire (99.99%)
Connector protection	Snag-proof
